

SONG A LYRICS

Secret world
Secret world
I wanna be, in your world
I'm a voyager
A voyager
And I wanna be
In your world

Come on come on
I wanna be
In your secret world

Come on come on
I wanna be
In your secret world

Secret world
Secret world
I wanna see in your world
I'm a voyeur
A voyeur
And I wanna see in your world

Come on come on
I wanna be
Come on come on
I wanna be

SONG B LYRICS

I should've locked the door
Pinned myself to the floor
Made someone cover my eyes
'Cause when the devil's on my left
Telling me to go ahead
You're right back in my mind

I'm a human tug of war
How do I cut the chord
Feel like I'm stumbling blind
And with the angel on my right
Telling me to pick a side
Tonight's too hard to fight
Heart over mind

Oh you make me wanna
Throw my body into the fire
Should've known better 'cause you're
dangerous
A painful love
Tonight's too hard to fight

Heart over mind

Oh you make me wanna
Take it all and swallow my pride
Should've known better 'cause you're
dangerous
A painful love
Tonight's too hard to fight
Heart over mind

Tonight's too hard to fight
Heart over mind

You should've stayed away
Known what a mess you'd make
Said it's a bad idea
Should've picked kindness over cruel
What a stupid thing to do
Now I, I can't rewind
Heart over mind

SONG C LYRICS

And I've never known love like the
simple way I love you
And I never thought I'd walk beside
someone like we do
And the ropes of inner motion inside
loosen up
And the hope that we know, like the
city lights won't stop glowing

In this short time, I've seen you soar
across the sky
In this soft light, I've seen you roar
above the trials

And I feel I'm coming home
And I feel like I've found my way home

From every moment that seems to just
roll on by
To be on your right helps the time slow
before it flies
If I'm honest this love is the flight that I
wanted
And I know that it could take us
anywhere we'd wanna go

In this short time I've seen you soar
across the sky
In this soft light, I've seen you move
when others don't

And I feel I'm coming home
And I feel I'm coming home
And I feel I'm coming home
And I feel like I've found my way home
