

## Holiday - How I create music on IMac and iPhone ft. Billie Eilish — Apple

**Instructions:** Watch the video and fill out the gaps in the transcript:

Transcript:

**Billie:** I'm Billie Eilish.

**Finneas:** I'm Finneas.

**Billie:** And this is how we \_\_\_\_\_ from scratch.

Music is \_\_\_\_\_.

I feel like, every song, I know, \_\_\_\_\_ an emotion I've felt. it's like how  
\_\_\_\_\_ I make a song that sounds like \_\_\_\_\_ that this light looks.

I think that's really weird to think about, but it's more \_\_\_\_\_ for me that  
way. Like, it \_\_\_\_\_ to rhyme;

it doesn't have to make sense;

[cause] it's just words.

\_\_\_\_\_ I need to create something out of it.

**Finneas:** Once we \_\_\_\_\_ the narrative,

[that] we can flesh out a song \_\_\_\_\_ it.

First guitar, then vocals, then that 808 sort of...

Logic is really easy to have \_\_\_\_\_ in

and I think having fun in a program is

how you get \_\_\_\_\_.

**Billie:** I think you have to force \_\_\_\_\_ sometimes. just put it out there,  
and if it flops, it flops.

But who cares?

At least you're doing what you want to be doing.
